3/13/2020

Dear Boyle Heights Community,

As a community member and partner of Boyle Heights, Promesa Boyle Heights would like to share updates regarding the steps that we, as a collaborative, are taking to keep staff and the Boyle Heights community healthy and safe. Your wellbeing is central to Promesa's purpose and a top priority as we join other partner organizations around the community responding to the current state of our global health.

In honoring our commitment to “One Community for Love and Justice” we want to ensure that we are prioritizing the safety of our staff, volunteers, program participants, community partners, and members. In doing so, we are protecting and caring for those most vulnerable in our community such as our seniors and youth, and those with compromised immune systems. We are monitoring developments closely and are taking proactive steps to maintain the healthiest environment possible by:

- Implementing personal space practices that limit physical interactions, and finding creative ways to greet each other
- Postponing or virtually hosting upcoming community meetings and gatherings of more than 10 people

Further communication will be sent out as it becomes available. If you have questions, please email us at promesa@proyectopastoral.org

In community,
Promesa Boyle Heights
